

Explore & More Visits You!

Explore & More will come to your facility and provide Hands-On Explorations that will actively engage children from pre-K through sixth grade.

A Visit from Japan

Pre-K-grade 1

Explore & More will visit your class with traditional Japanese materials to • **expose** your students to a multicultural world through everyday activities • **explore** similarities and differences in family routines (eating, sleeping, writing) • **encourage** the development of healthy attitudes about diversity

Senses

Pre-K-grade 1

After a brief introduction to the senses, students will rotate through different sensory stations –using sight for close-up explorations, identifying objects by touch, exercising their senses of taste and smell, and making sounds with their own shaker.

Featherbeds

Pre-K- grade 2

Children will try to think like birds to discover why and how birds make nests. They'll have fun examining real nests and then making their own nests and eggs to take home. If time, a group nest-building activity completes this much-loved hands-on experience. This unique program is offered only during nesting season, spring and summer.

States of Matter

Grades 2-6

Atoms? Disordered molecules? Vaporization? States of Matter? Using illustrated lecture, awesome demonstrations, and active student participation, this workshop will engage your students and help them to understand these concepts.

Culture Days

Grades 2-6

Curious about how children live in other parts of the world? Explore & More will come to your facility with *Culture Days!* Check out the *Cultures of Kids* part of our website at www.exploreandmore.org Or call 716-655-5131 ext. 14 for a brochure.

Etc...

Explore & More has other programs such as Graham Cracker Houses, Paper-Making, Felting and City Blocks. These and other programs can be tailored to suit your needs. Please call!!

Fees for Hands-On Explorations

Single workshop (max. 1 hour) \$150

Half-day of workshops (max 2.5 hours) \$250

Full-day of workshops \$350

There may be additional fees for groups larger than 25 students at a time, and for locations more than 30 miles from East Aurora. BOCES component school districts may qualify for state aid reimbursements through the CoSer program.

To schedule a program or to talk with someone, call 716-655-5131 ext. 14
