

# Explore & More Visits You!

**Explore & More... a children's museum** will come to your facility and provide **Hands-On Explorations** that will actively engage children from **kindergarten through sixth grade**.

## **Featherbeds**

For grades K-2.

Children will try to think like birds to discover why and how birds make nests. They'll have fun examining real nests and then making their own nests and eggs to take home. A group nest-building activity completes this much-loved, hands-on experience. This unique program is offered only during nesting season, spring and summer.

## **Illumination and Printing**

For grades 4-6.

Explore the medieval art of illumination and its use by the Roycroft printers a century ago. Using our own small press, students will create an illuminated motto of their own.

## **Senses**

For grades K-1.

After a brief introduction to the senses, students will rotate through different sensory stations - matching sounds and smells, using sight for close-up explorations, identifying objects by touch, and exercising their sense of taste.

## **States of Matter**

For grades 2-6.

Atoms? Disordered molecules? Vaporization? States of Matter? Using illustrated lecture, awesome demonstrations, and active student participation, this workshop will engage your students and help them to understand these concepts.

## **Culture Days**

For grades 1-6.

Curious about how children live in other parts of the world? Explore & More will come to your facility with *Culture Days!* Check out the *Cultures for Kids* part of our website at [www.exploreandmore.org](http://www.exploreandmore.org) Or call 716-655-5131 for a complete brochure.

## **ETC. ...**

Explore & More has other programs such as Building Curiosity: Inside Architecture, International Games, Math Enrichment, and Multicultural Masks; any of these can be tailored to suit your needs. Please call!

## **Fees for Hands-On Explorations**

Single workshop (max. 1 hr): \$130

Half Day of workshops (max. 2.5 hours): \$225

Full Day of workshops: \$350

There are additional fees for groups larger than 25 students at a time, and for locations more than 30 miles from East Aurora. BOCES component school districts may qualify for state aid reimbursements through the CoSer program.

To schedule a Hands-On Exploration call **655-5131 ext. 14**
